

## **Annual General Meeting - November 2022**

### **Site Secretary Report – Site 3 : Plots 50 – 100**

#### **Lettings**

Over the last year 9 plots have been let in the Outer Area. The Paddock School have given up their large plot, enabling the creation of two new plots. A smaller more manageable area has been built for The Paddock School.

#### **Plot Inspections and Cultivation**

Although it was a difficult year with very little rain in the main growing season, most plot holders managed to produce good crops. Very few letters had to be sent out after plot inspections. It is unfortunate that a few plot holders have large grassed or uncultivated areas on their plots, when at least 60% of their plot should be cultivated in the growing season. One Stage 3 letter and one Stage 4 letter were sent out.

#### **Thefts from plots**

Unfortunately minor thefts have occurred. The many gates leading onto the plots from neighbouring houses continue to be a problem.

#### **Common Areas**

The Potting Shed was well used over the year especially on warm summer evenings and it is a pleasure to see it appreciated. Heather Harrison has further improved the rear entrance from Huntingfield Road.

#### **And to say thank you**

To Helen Finch who is always accessible for advice and guidance, to Ali Linton and Catherine Maunsell-Bower for sharing Site Secretary issues, to Bob Aveling for his watering help and watchful eye on The Potting Shed and to Artan Dellalisi without whom a lot of useful work would not be done.
