

We need your help

You may have noticed that the Victorian memorial fountain at the bottom of Medfield Street has had a facelift . . . Residents had been asking what could be done to restore this local landmark, with its original drinking troughs and basins put to new use. In summer 2021, thanks to funding from Roehampton Community Week, Vicky Pigott organised a community project involving, among many others, ladies from Ahmadiyya community, Roehampton Community Shed, councillors and Alton regeneration team, to bring the site to life. With plants provided by the Wimbledon Foundation, Roehampton Community Week funds and Putney Rotary, the fountain now brings welcome colour to this busy area. To quote one passer-by “It looks amazing”.

**We promise becoming a Fountain Friend
will be a pleasure, not a chore!**

Ongoing maintenance is done by volunteers **Vicky Pigott and Val Jones**, with water provided by **Hungerford Motors**, the garage opposite – but we need more help to keep the plants thriving and would love **Roehampton Garden Society members – close neighbours** – to be involved. We are asking for help to maintain this wonderful area for everyone’s pleasure. Could you spare some time, maybe one hour a month, to weed, water, deadhead, advise and generally tend? We want to establish a rota (times to suit) - if we could get 6 people working in pairs it would mean just one session a month, shared with existing Roehampton volunteers.
