

WAITING LIST REPORT 2023

There are currently 366 people on the Primary Waiting List. 85 people were added to the list in the last 12 months and the wait time is about 4 years.

As usual approximately 10% (25) of our plots changed hands this year, but 16 of those were on site 2, which is most unusual. (There are 91 plots on site 2 and 176 on site 3.)

Once many people reach the top of the list they don't always still want a plot at that time of their lives. Many life changes can happen in 4 years! So if they say the time is not right for them then we offer them a place on our Secondary Waiting List where we keep their name only for up to 10 years. (This stops people taking a plot and holding on to it even if they don't have the time to work it.) The onus is on them to contact us again when they would like a plot. We then move them back to near the top of the Primary Waiting List. There are currently 395 people on the Secondary Waiting List.

Jackie Savage – Waiting List Secretary 2022 - 2023
